Hale Bros.—Handkerchief save.
Red House—The result.
Wines and Liquors.
M. Madsen, contractor and builder.
Architect—James Seader.

LOCAL INTELLIGENCE.

BOARD OF HEALTH.

The Board of Health met Saturday evening at the office of the Secretary, Dr. Hatch. Present Dr. Tyrrell, Cluness and Laine, Dr. Hatch was absent on account of illness. Mayor Brown and City Surveyor Bassett were present by invitation. The reports of the Health Officer and City Physician for the months of August and September were read, approved and ordered on file. The number of deaths reported for September were forty-eight. It was explained, however, that of the number eleven did not belong properly to the city. The report in cludes those who died at the Railroad and County Hospital.

A passenger ship by a large number of citizens in the northern portion of the city was received, asking the Board of Health to have the slaughter-house of Heilbron Bros. which is located at Twenty ninth and I streets, removed on account of the pestiferous which was not in conformity to the health ordinances. They assert that the same is not kept clean, is offensive to the neighborhood and directly the cause of a great deal of sickness.

Reports were made to the contrary, but the passenger was advised to act, and the matter referred to the Health Officer, who was instructed to report at the next meeting.

Charles Heisen appeared before the Board and made an explanation relative to his having a number of escape valves on his vessel which was not in conformity to the health ordinances. He stated that the work was almost completed when the ordinance was passed, and he would make any change in the same that the Board would direct. This matter was referred to the Health Officer with power to act.

The Health Officer complained that certain citizens had been making representations to the Board in regard to abating the I-street nuisance. The railroad company are complying with the order of the Board; R. Niel, Gardner and Bassett have made some filling, and others have opposed the matter, and refused to do anything toward abating the nuisance.

Major Brown addressed the Board on this matter, and assured them that the nuisance was not in the city, and that it was his view he could, proposed to fill up all low lots complained of, and which the owners refuse to fill, and would take the chance of making a hole in the property. The Health Officer was informed that Chinatown was thoroughly cleaned and that the disease breeding lot referred to were properly filled.

Dr. Tyrrell was appointed a committee of one to draw up resolutions of respect to the manner in which the Board of Health intended to report at the next regular meeting.

City Engineer Bassett explained at length the State system of sewerage, which he said, showed the system to be in a bad condition, the cost of putting it in at \$60,000. A special meeting of the Board will be held Tuesday evening. The Board of Trustees will be present, and the sewerage question thoroughly discussed.

TRIBUTES TO THE MEMORY OF MRS. HUNTINGTON.—Rev. Dr. Bent, President of the Pacific Theological Seminary and editor-in-chief of the *Pacific*, thus speaks of Mrs. C. P. Huntington, formerly of Sacramento, and who died on the 5th instant at New York: "Though she had lived in New York nearly twenty years, she had not forgotten California; nor the many friends she had made and to whom she often visited almost every year. Miss Huntington was one of the most beautiful and attractive of ladies when the winter first met her in the two years ago, and she had never changed since, up to the time of her mortal sickness. Our acquaintance with her was renewed, and our regard for her deepened and freshened by having had a good hour with her active benevolence and genial smile. She had been married, and she took a laborious part in managing and sustaining a great institution for the care and comfort of the afflicted and the unfortunate. She was a person to whom every one could be glad to be associated with, and indeed she will be greatly missed and sincerely mourned everywhere. Losses come daily, but such a loss comes rarely, and so, with this portion of her life, she has closed with another saintly soul and another Doctor, gone to her reward."

COMMERCIAL.—During the past week the following steamers arrived at this city: Flores, San Joaquin No. 3, Dover and Varuna, from the upper Sacramento, with grain; the San Joaquin No. 2, from San Francisco, with general merchandise; C. M. Small, from San Francisco, en route to Marysville with general merchandise; the Reform, San Francisco, a lumber and timber carrier for Friend, Terry & Co. and W. F. Fraser. The following steamers left for the city: San Joaquin Nos. 2 and 3, from San Francisco, with cargoes of grain; and Varuna, Dover and Flores, for the upper river, light.

RIFLE MATCH.—For some time past there has been considerable discussion in Company C ranks as to who was the best shot. Corporal James McCarthy or Corporal Ed. Sheehan was shot by another, but it is to the former who should be awarded the leather medal was a question much debated. Yesterday a match was arranged between the gentlemen, and the shot at Company G's range with the following result:

Corporal McCarthy.....25 29 33 38 30-17

Corporal Sheehan.....28 33 39 33-17

AUDITOR'S REPORT.—Receipts for the week ending October 13, 1883: William Lenkotter, cemetery dues \$42 75; R. D. Scorer, water rates, \$1 22 50; N. A. Kidder, hardware, \$5; W. A. Henry, Police Court, \$50; R. D. Scorer, Postman, \$1 22 50; H. McKeen, rent, sale of material, etc., \$12 68. Total amount in city treasury, \$224,132 62.

THE POLICE JUDGEMENT.—There has been pending before the Supreme Court for some time a case involving the question whether an election for Police Judge should be held in this city. The Justice has ruled that the Supreme Court has decided that there is to be no election for the position until the next general election.

TO WATER TAKERS.—To-day (Monday) is the last day for paying the water rates by all consumers who pay in excess of \$5 per month. If not paid, the law requires the water to be shut off at once.

RAIN AND WIND have lost their terror since you can get double-fold waterproof for 48 cents per yard (when 65 cents). Dry Goods Department, Red House.

ONE THOUSAND dozen ladies' pure linen cambric handkerchiefs, hemstitched and colored bordered. Price, 12½ cents each, Wednesday at Hale Bros. & Co.

GATHER IN YOUR FRUIT.—"44" Fruit the "Garden" bleached muslin—the best for cotton underwear; 10 yards for \$1. Red House.

PNEUMATIC SEWERAGE SYSTEM.

Interview with City Engineer Bassett. Interesting Account of the Plan Proposed.

A representative of the Record-Union called upon City Engineer Bassett Saturday in relation to his proposed new plan of sewerage. After a brief discussion of the subject, the following statement in response to inquiries was obtained:

Mr. Bassett, "It will probably be some time before you are prepared to make your report in full on your plan for sewerage, have you any project to submit as a half dozen or so plans. Some of our people are very desirous of getting an understanding of it.

Answer—None whatever.

Q.—Will you please state why our existing sewerage system is not sufficiently good for all purposes, so far as sewers have been constructed.

A.—Principally because of the lack of sufficient grade and a poor system.

Q.—What do you mean by a poor system? I mean that they are not in the proper places, and the sewers are retained, and ultimately the effect is that they become filled to a considerable extent with decomposed matter, which pollutes the sewer works; or, if you will, the sewer system.

A.—I anticipate that it can be so arranged that the expense need not be but little more than that necessary for fuel for a forty-horse power engine. By securing land on the rear of the city, we can have the building of the flumes, putting up additional boilers and erecting the necessary air compressing machinery, I think the men who now run the water works could also attend to the additional work of compressing air.

Q.—When can this matter be brought before the people for their adoption or rejection?

A.—By the time that we have a report in full, I would be prepared to go to the people for their adoption or rejection.

Q.—Will there be any plan to obtain a velocity before the next tax levy, so that the money can be collected with next spring's taxes, or by submitting the matter at the regular election next spring, and collecting the money at the next tax levy?

A.—When we have a report in full, I would like to call attention to the fact that until something is done to the sewer system, it will be necessary for the city to pay the expenses of the sewerage.

Q.—Will there be any plan to obtain a velocity before the next tax levy, so that the money can be collected with next spring's taxes, or by submitting the matter at the regular election next spring, and collecting the money at the next tax levy?

A.—When we have a report in full, I would like to call attention to the fact that until something is done to the sewer system, it will be necessary for the city to pay the expenses of the sewerage.

Q.—Will there be any plan to obtain a velocity before the next tax levy, so that the money can be collected with next spring's taxes, or by submitting the matter at the regular election next spring, and collecting the money at the next tax levy?
